Examiner Beyen,

Thank you for taking my call and discussing the case with me. I appreciate the explanation you provided. Below is a summary of our discussion. Please feel free to copy this to the Interview Summary if you believe it to be accurate. If further clarification is required, please let me know. Thank you.

- Hyung Sohn

Examiner and Applicants' representative discussed application status and claims of record. Examiner explained how the claimed features read on the applied references of record, and also explained how the After-Final Amendment raises new issues. Examiner and representative discussed a feature that may overcome the current rejections of record. However, further consideration and/or search would be required.
